How does the workshop work?

Simon Hettrick

The four tenets

1. Meet new people
2. Information's on the website
3. Email everything (except attachments)
4. We're flexible

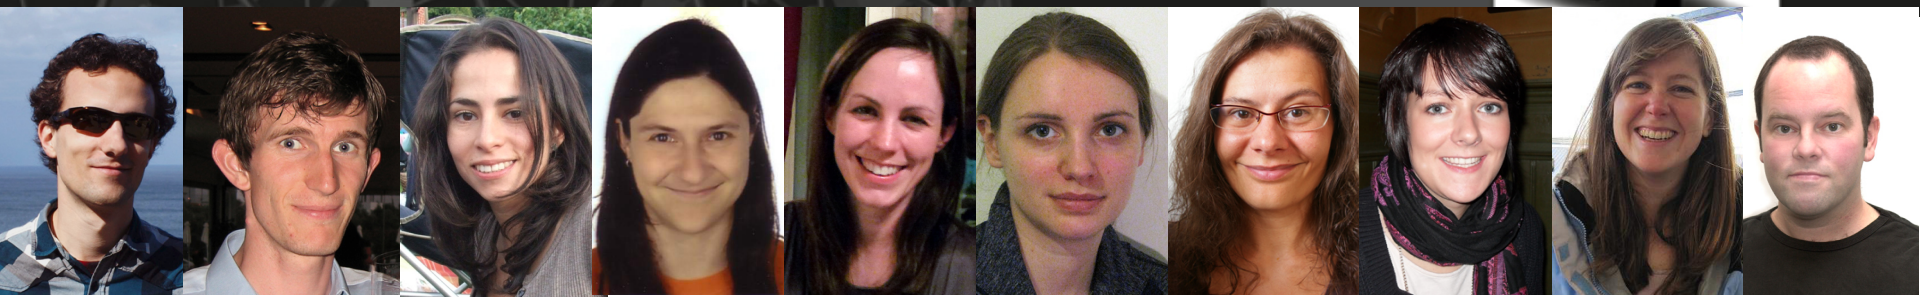
The Agents Network

Creating a better understanding of research



- A group of *software-savvy* researchers from all disciplines
- Agents connect their research discipline to the Institute
- Provide conference intelligence and more
  - http://www.software.ac.uk/agents

Collaborative ideas

- Go to the hall and grab a coffee
- Group number on your name badge
- Find appropriate table
- Introduce yourself
- Pair up, decide on a collaboration and one of you write it up
- Pin your best ideas on the Collaborative ideas board
